Private chauffeur service

Clear public pricing - all applicable VAT included

Every amount in this document is a complete public price for the service described. Prices are for the entire private vehicle, never for a single seat. The written quotation confirms the final service before booking.

What the service includes

Professional chauffeur, executive vehicle, door-to-door transportation and operational coordination. Airport arrivals include flight monitoring, meet-and-greet and the included waiting period stated in the confirmed service.

Choose the vehicle for passengers and luggage

The final category depends on passenger count, luggage volume, route and availability. Passenger seats cannot be used for luggage. Always provide the number and approximate size of every suitcase before confirmation.

Written confirmation

Date, pickup time, passenger count, luggage, exact addresses, planned stops, ship or flight details and special requirements must be provided before acceptance. A service is confirmed only in writing.
